PROJECTS

2026	Marineria.it // Development of a bilingual mobile app (iOS/Android) using React Native. Focused on UI design and API integration with OTP authentication. [Mobile.UX] [React.Native] [REST.API] [OTP] [i18next]
2026	OneMore // Cigarette tracking app built with React Native and Expo. Deliberately minimal design: log each cigarette, see the real number, no streaks or artificial gamification. Live on the App Store. [Mobile.UX] [React.Native] [Expo]
Ongoing	Keen Studio // Cross-platform UI generation system for React and React Native, enforcing design decisions at the type level via generateTheme() and createUI(). Component library and theme engine live; CLI and visual configurator (Keen Studio) in active development to reduce setup friction and enforce consistency across projects. [React] [React.Native] [TypeScript] [Design.Tokens] [Turborepo]
2026	BookMarquee // Chrome and Firefox extension (Manifest V3) to organize and manage Twitter/X bookmarks. [React] [TypeScript] [Vite] [Chrome/Firefox.MV3]
2019	Wahl-O-Mat // Analysis of interface issues and creation of interactive Figma prototypes. Validation of new design concepts through direct user feedback. [User.Research] [Figma.Prototyping] [UX.Analysis]
